Spring 2012 Computer Classroom Survey

Computer Lab Management would like to know how we can improve your experience teaching in the computer classrooms. We have used past feedback to improve our services and facilities, and hope to use your feedback to further improve our services.

If you have taught in multiple classrooms, please respond for each classroom separately. For example, if you taught in both 21 Olson and 241 Olson please fill out this form twice, once for each room. This will allow us to match your comments with the specific computer classroom.
